

Expression of Interest (EOI) – Application Form NSW On-Farm Irrigation Efficiency Program Round 5

Applicant: _____ Contact's Name: _____

Address: _____

Phone Number: _____ Mobile Number: _____

Email: _____

Farm Location: _____

Irrigation Source: _____

Project Type: Mechanised Flood Drip

Project Description: _____

Approximate area of proposed project: _____

Do you have an existing whole farm plan: Yes No Pending

Type of water entitlement to be transferred: _____

Estimated ML of water savings (if known): _____

ML to be transferred to Australian Government (if known): _____

or nominate % to be transferred to Australian Government: _____

Approximate cost of project (if known): _____

Price per ML you are seeking (or a range): _____

Land owner cash contribution (if applicable): _____

Have you applied with another potential delivery provider?: Yes No

Please return to John Fagan, CAF Consulting at the Deniliquin office, post to PO Box 1948 Shepparton Vic 3632 or email completed forms to OFIEP@cafconsulting.com.au If you require assistance or wish to discuss any aspect of this please call on John on 03 5881 3374 or 0417 376 228.

Expression of Interest (EOI) – Information Sheet

NSW On-Farm Irrigation Efficiency Program

Round 5

General

If you have any questions or concerns about the Round 4 process please call us on (03) 5881 3374 or 0417 376 228 and we will be happy to discuss your issues.

Farm Location

Please indicate the road address and the title information

Irrigation Source

Please specify your irrigation diversion source.

Project Type

We are sponsoring the following potential project type improvements for funding opportunities;

- Mechanised irrigation
- Flood irrigation
- Drip irrigation

If you wish to nominate both project types please submit separate EOI's.

Project Description

Please briefly describe all project activities associate with the potential project.

Whole Farm Plan

For any project to be considered for funding a whole farm plan or similar document is required for the landholding on which the works are to be undertaken.

The plan is required to ensure the proposed infrastructure project is suitable to the farm layout, systems and water supply to achieve the water savings.

If you do not have a plan and need assistance in its development we will be happy help you.

Type of Water Savings

Stipulate whether the entitlement savings to be returned are general or high security or ground water and their source.

Estimated ML of water savings

Total amount of water savings you expect to achieve through the project.

ML transferred to the Australian Government

The number of ML you propose to transfer to the Australian Government. This number must be at least 10 water entitlements and a minimum of 50 percent (50%) of your estimated water savings.

Approximate cost of project

Please ensure that all aspects of your project are included in the project costs you submit. We do not need detailed costings at this point.

Price per ML you are seeking (or a range)

In general the cost per ML is the approximate cost of the project divided by the total ML of water savings

Land owner cash contribution (if applicable)

If you wish to make a cash contribution to the project indicate the amount. This is not a mandatory requirement but must be substantiated and assessed in latter stages of the project application/implementation.

Landowner in-kind contribution

This reflects the monetary value for a landowners time and resources used to complete the project. They are not claimable against Government funds but are acknowledged in the total value of works for a project. This is not a mandatory requirement of a project.
