On Farm Irrigation Efficiency Program Round 5

The Australian Government is working to improve the efficiency and productivity of irrigated agriculture.

CAF Consulting is a Delivery Partner in the \$263 million Round 5 On Farm Irrigation Efficiency Program.

CAF specialise in survey, design, project management and can streamline the process in executing your modernisation project.

Eligible Catchments in Round 5 are NSW Murray, Murrumbidgee and the Lower Darling.

Activities eligible for funding will generate water savings for irrigators and the environment, will be infrastructure based and occur on an existing irrigated farm.

Submissions must include a current irrigation plan showing proposed works.

Expressions of Interest Close July 27, 2016.
